MICHAEL C. ZARROLI
PRIMARY EXAMINER

1. The following is an examiner's statement of reasons for allowance:

Regarding claim 1 the prior art of record does not teach or suggest alone or in combination, the combination of elements especially the base formed of three dimensional formation circuit board with fitting portion and an electrical component.

The following prior art discusses some claim elements but not a three-dimensional formation circuit board or an electrical component on the base: Gordon et al, Morlion et al, McGrath, Ono, Yokemura et al and, Kataoka et al. Morte et al teaches an electrical component on a base but no counterpart connector. Tate teaches an electrical component on a base but on the counterpart connector base. Both Nishio et al (US2004/0023528) and, Nishio et al (US6905344) teach a base with mounted electrical component but no three dimensional formation circuit boards. Japanese patent JP3-49178 does not teach a three-dimensional formation circuit board or an electrical component on the base.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael C. Zarroli whose telephone number is 571-272-2101. The examiner can normally be reached on 7:30 to 3:30 M-F.
